JB,

There was so much fluidity over various decisions in the run-up to Jan. 30 that we went with a word file handout that presented decision options for management action. My latest briefing handout is attached, but it feels really dated at this point.

I think your best bet is to borrow heavily from the last version of the communications roll-out package & the talking points handout. I've also included a 1-page handout that me and my management put together to prepare Ken Kopocis for questions that may arise during the forthcoming appropriations hearings on Capitol Hill.

Sorry, no pretty PPT slides...

Don

**Subject:** OR CZARA--powerpoint slides

Hi all,

I've been asked by my office to give a talk about the recent OR CZARA action. I'd like to not start from scratch, if I don't have to. Does anyone have some powerpoint slides from a briefing or talk they've given on this topic? Please let me know.

Thanks,

**Jennifer Byrne**
